

## 2010 Library RFID Usage Survey

### The Questions:

#### Users:

- Have you deployed RFID across the whole service or only in part?
- What percentage of your service points are using RFID?
- What percentage of your sites will be RFID enabled by the end of 2010?
- For which operations do you use RFID?
- Please give your reactions to each of the following statements about RFID.
  - It's only useful for self service
  - Book security is poor
  - CD/DVD security is poor
  - Individual privacy may be compromised by its use
  - Data standards are not important
  - Our library will not use the UK data model
- Why did you decide to use RFID?
- Which supplier(s) do you use? (Please tick all that apply)
- Which other systems does your library use?
- How reliable have you found the hardware/software?
- How did you tag your stock? (Please tick all that apply)
- ...and what materials did you tag?
- Do you use Electro Magnetic (EM) Security (Tattle Tape) in combination with your RFID solution?
- Which of the following statements applies to your CD/DVD collection management?

#### Planners:

- Do you plan to introduce RFID technology in your library in the future?
- When do you plan to introduce it?
- For which operations do you plan to use RFID?
- Please give your reactions to each of the following statements about RFID.
  - It's only useful for self service
  - Book security is poor
  - CD/DVD security is poor
  - Individual privacy may be compromised by its use
  - Data standards are not important
  - Our library will not use the UK data model
- Why are you considering RFID?

#### All respondents:

- Which of the following sources of information about RFID do you find useful?
  - Library Management System suppliers
  - RFID suppliers
  - CILIP
  - BIC (Book Industry Communications - e4libraries project)
  - LIB-RFID (JISC Listserv)
  - Trade Literature
  - Library Literature
  - Internet Blogs
  - Other Internet resources
  - Colleagues
  - Other (please specify)
